6. Business Short to Long term goals

We want to be seen as cultivator of poverty through job creation. We plan to expand across the country by opening offices, which will assist to bring solution to the all clients across the demographical area.

7. Management and organization

Riskho Holdings is managed by the experienced professional individuals. The organization's teams of consultant have appropriate experience in the field of Repairs, Design and construction.

Riskho Holdings is partnered with the most experience and qualified Carpenters, tillers and Welders on other field such as, Electrical, structural and ect.

8. Professional Body

Riskho Holdings take compliance serious to be able to successfully follow the relevant engineering regulation.

We are currently registered with the CIDB (Construction Independent Development Board) and recognize as 1CE PE, 1EB PE, 1SO PE, 1EP, PE, 1SQ PE, 1GB PE for civil engineering and building constructions.

9. Finance capability

In the past, we created the strong relationship with the financial institution, which led us having a good financial record with the financial institution.

We are in the position to secure a construction guarantee to the tune of not less than 10% of the construction value.

10. BEE requirement

Riskho Holdings strongly believes in the government system to recognize the previously disadvantaged individual. **Riskho Holdings** is 100% owned and managed by young black individual.

We currently have policy in place to transform the gender equality in the coming 1 year which will include among other, woman and disability.

Riskho Holdings is currently rated as Level 3 contributor of the BBBEE codes. This is due to change next year from level 3 to level 1 after announcement of the changes in BBBEE codes which was announced by the minister during a month of August that recognize black owned entity into level 1 of BBBEE.

11. Pricing and marketing

It is vital for an organization to produce quality products for the clients, however what will differentiate us from our competitor is that; our competitor believes good quality is costly.

To overcome our competitor's perception, we partnered with certain hardware or manufacture of different kind of building material. This led to us being able to provide service at a cost effective way due to price negotiation with our partners.
